Goa

Goa is a state in wetsern India with coastlines stretching along the Arabian Sea. Its long history as a Portuguese colony prior to 1961 is evident in its preserved 17th-century churchess and the area's tropical spice plantations. Goa is also known for its biches.

Things to do:

- WATER SPORTS
  There are many water sports activities to choose from, almost throughout Goa. There is parasailing, windsurfing, speed boat and banana boat rides, water skiing, water scooters, boogie boarding, dinghy sailing, and more. Of course, there is swimming too at the beaches. But remember, there are rocks in many Goa beaches. Also, watch out for riptides. There are lifeguards at the most popular beaches, but not all. You can also try deep sea fishing in Goa.

- KAYAKING
  Kayaking in the backwaters of Goa could be an experience of a lifetime. Gently glide through the calm waters as you get close to the birds, bats, and the occasional dolfins. This tranquil experience will give you beautiful memories. You can see the villages, churches, and the daily life of the Goanese people as well.
